

MANY LOST LIVES WHEN  
VESTRISS SANK—FIRST  
REPORTS INACCURATE

New York, Nov. 14.—Through the joy over the 220 passengers and sailors saved and sorrow for the 103 lost when the Vestris went down at sea Monday, a strong note of criticism predominated as the survivors reached New York today. Stories from the passengers, some of them slowly recovering from hours in the water, blamed Captain W. J. Carey, late master of the Lamport and Holt liner, for the extent of the disaster. Passengers and sailors joined in praising the captain as a brave sailor, while many indicted him on charges of bad seamanship. All in position to have knowledge of the facts said that the captain was on his vessel when she sank, agreeing that he died like a sailor whatever may have been his shortcomings in the time of stress.

The survivors did not know what crippled the ship, and on explanation may not be found. Some thought shifting cargo was to blame, while others believed that a slight leak, growing greater as the hours went by, finally sounded the death knell of the sturdy sea traveler.

Charges against Captain Carey were that he waited far too long to summon help.

The Vestris sailed from Hoboken, N. J., Saturday afternoon and soon developed trouble. Pumping and bailing went on Sunday morning when the vessel began to list, but no SOS was sent for nearly 24 hours.

## DECEMBER ROD AND GUN

In view of the increasing interest in the farming of muskrats an article in the December issue of Rod and Gun and Canadian Silver Fox News on a new muskrat ranching venture on a large scale is of special note. In addition to this, the latest issue of national sporting magazine carries its customary acceptable collection of hunting, fishing and outdoor yarns by well known authors.

Among the contents are a narrative of moose hunting by N. H. Roberts, a prominent shooting expert and one on fish hatchery work by Jack Doyle, and many other interesting articles on deer and duck hunting, trapping, angling, guns and ammunition, dogs, and the silver fox industry by thoroughly capable writers.

Rod and Gun and Canadian Silver Fox News is published by W. J. Taylor Limited, Woodstock, Ont.

"Too much dinner, Willie?"

"No, ma'am, not enough boy."

APPLICATION FOR BEER  
LICENSE

Public Notice is hereby given that the undersigned intend applying to the Alberta Liquor Control Board for a license to sell beer by the glass or open bottle for consumption in conformity with the provisions of the Government Liquor Control Act of Alberta and the regulations made thereunder with respect to the following premises:

In a room on the ground floor, adjoining the eastern wall and extending from the front towards the rear of the American Hotel, situate on lots 33 and 34 on the South side of 24th Street, West of 5th Avenue, Plan 92-B, Town of Macleod, Province of Alberta.

DATED at Macleod, Alberta, this 24th day of October, A. D. 1928.  
JOHN SWINARTON  
DAVID JOHNSON GRIFF

FOR SALE—110 PIECE SET English table silver. A1 plate. At a bargain for cash. May be examined at Dilly's Cafe, Macleod.

NEW ZEALAND GOVERNMENT  
WAS ROUNDLY DEFEATED  
AT GENERAL ELECTIONS  
HELD ON WEDNESDAY; NEW  
PARTY GAINS; DEADLOCK

Wellington, N. Z., Nov. 14.—(Vancouver Province Cable)—The general elections on Wednesday resulted in a heavy government reverse. The new United party, under the leadership of Sir Joseph Ward, made its debut by gaining seats from Premier J. G. Coates' party all over the Dominion.

The final standing, by parties, is: Government 28, United Party 26, Labor 20, Independents 6. Most of the new independents are opposed to the government.

The premier's party failed to gain a single seat. It held 53 of the 80 in last parliament.

Premier Coates stated he will consider the position when all figures are available.

The new United party combines Liberals, Nationalists and others opposed to the Reform and Labor parties.

Three ministers lost their seats, namely, Hon. A. D. McLeod, minister of lands; Hon. J. C. Hawken, minister of agriculture, and Hon. J. C. Rolleston, minister of justice.

Licensing showed an overwhelmingly even majority.

An Even Break  
Wellington, Nov. 14.—(Canadian Press Cable, via Reuters).—Initial returns from today's general elections in New Zealand indicated that the government under Premier Coates had suffered a severe setback.

It was estimated the government and United parties would have 27 seats each in the house of representatives; Labor 20, and independents 6, a total of 80 seats.

A number of ministers were defeated.

Apparently the government or reform party would be 14 seats short of securing a majority in the house of representatives, whose 80 seats include four Maori.

The ministers defeated, according to the early returns, were: Hon. A. D. McLeod, minister of lands; Hon. O. J. Hawken, minister of agriculture, and Hon. J. C. Rolleston, minister of justice.

The licensing issue, always voted on in New Zealand general elections, resulted apparently in a majority of 100,000 against continuance of prohibition of liquor.

The outstanding feature was the strong showing of the United party, which is led by Sir Jos. Ward, former premier. It is a combination of the Liberals and independent Liberals who had eleven seats in the last house.

The standing in the last house was: Government (reform) 55 seats; Labor 20; Liberals 11; independent 1. Total 80.

Hon. J. G. Coates assumed the premiership in 1925, in succession to the late Hon. W. F. Massey.

## THE NATURAL FOOD

A committee of the Scottish Board of Health has recently conducted a seven month feeding test of school children from 5 to 14 years of age. The children received little or no milk at home. At school one group was fed biscuits advertised as having all the food qualities of milk, one whole milk and another separated milk. The addition of milk to the diet was accompanied by a rate of growth as indicated by an increase in both height and weight 20% greater than that in children not receiving the extra milk. This increase in rate of growth was accompanied by an improvement in the general condition of many of the children receiving milk. The separated milk was of great value in promoting growth. The biscuits produced results significantly worse in the five year and 13 year old children and no significant difference in growth of the 8 year olds.

Milk is our best protective food. We need it. Children cannot develop properly and grow without it. What a price is paid for it, milk is still the cheapest food for children, because it is the indispensable food for them, the one food they can thrive and grow strong on.

Farmers have been known who sell all or nearly all their milk and cream to other people and let their own children go without. Ignorance and an improper sense of values deprive these children of the best and cheapest food, food that cannot be replaced by the largest helpings of pie or hash.

Milk is not only a food in itself, but is also a "protective" food because when eaten in conjunction with deficient foods causes the latter to be more valuable, as well as warding off certain diseases and promoting both mental and physical stamina.

Milk is a solid food, a growth producer. Clean wholesome milk is the greatest factor of safety in the human diet. Give your child a chance to grow, give him a quart of milk every day.

For general health literature write to the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

E. G. RINGHEIM, EXPERT MECHANIC, TAKES OVER REPAIR DEPT. OF SERVICE GARAGE AT MACLEOD

E. G. Ringheim, expert auto repair mechanic from Wynndel, B. C., has taken over the repair department of the Service Garage, and with his wide experience in repair work and with up-to-date equipment guarantees satisfactory service on any and all auto repair work. Mr. Ringheim will also do general machinery and tractor repairs on a basis of guaranteed satisfaction and at moderate prices.

## CAPITAL GOSSIP AND PROVINCIAL NEWS

## Dominion Wheat Crop Estimate Issued

Alberta's 1928 wheat crop is placed at 147,565,000 bushels, or an average of 22 bushels per acre from the acreage sown in the province, in the crop estimate issued by the Dominion Bureau of Statistics during the past week. This figure compares with 171,285,000 bushels as shown in the final estimate of the 1927 crop. A considerable reduction from the earlier estimates of the yield in the western provinces has been made as a result of the frost injury to the crop. Alberta's average wheat yield compares very favorably with that for the whole Dominion which is placed at 29.8 bushels per acre.

## Alberta Homesteads in Great Demand

Alberta has taken a commanding lead among the western provinces in the number of homestead entries for the nine months ending September 30, 1928. Homesteads in the number of 9,533 have been filed in the four provinces during that period, as compared with 4,695 in the corresponding months of last year. Of this number, homestead entries in Alberta totalled 5,476 as compared with 2,931 in the same time last year. While this figure includes a number of second homestead applications under the new regulations, it is stated that the great majority represent new settlers who are taking up land to establish homes in the province.

## Information For Sportsmen

Attention is drawn by Benjamin Lawton, Provincial Game Commissioner, to a number of clauses in The Game Act which are being wrongly interpreted in some quarters. Mr. Lawton points out that nowhere in Alberta is there an open season for beaver and there is no open season for muskrat in that part of the province lying to the south of the North Saskatchewan River. Between that river and Township 91 the open season for muskrat will be during the months of March and April, while in the months of May and June the open season will be during the months of March and April and the first fifteen days of May.

The open season on Hungarian Partridge is during the months of October and November. It may also be noted that big game hunters may bring out their trophies such as heads, hides and horns of big game animals lawfully killed by them, separate from the carcasses.

## Limestone Is Valuable Alberta Product

A total of 3,367 tons of limestone, valued at \$7,300, was quarried in Alberta in 1927, according to the recently issued report of the Dominion Bureau of Statistics. Alberta stands sixth among the provinces of the Dominion in the volume and value of production along this line. Five plants employing 56 persons were engaged in the monumental and ornamental stone industry which turned out products valued at \$191,160. Products of the same number of plants employing 47 persons in 1926 were valued at \$182,191.

## Willingdon Line Completed To Edmonton

Closing the last link of the C. P. R. Cutknife-Whitford Lake line, construction of the seventy-mile section from Willingdon to Edmonton was completed during the past week. Large quantities of grain have been stored in the elevators along this line and a heavy movement is expected when the road is opened for traffic. In all some 100 T. elevators have been constructed at the townsites along this new line to handle the grain production of the rich territory thus opened up.

## Changes Announced in Fishing Regulations

A number of new regulations dealing with the commercial fishing industry in the province have recently come into effect, according to R. T. Rodd, Dominion fisheries inspector for Alberta. Only a British subject or a resident of the province or a Canadian firm having its headquarters in the province will be eligible to take out a commercial fishing license. Winter fishing in Lac Beauport will be allowed from December 1 to February 15 inclusive, unless the maximum catch permitted under the act has been taken before that date. A long season will be allowed in Lake Isle in the Wabamun district where fishermen may operate until May 16 to February 15 of the following year, unless the maximum catch has been taken prior to that date.

## Good Price Secured For School Lands

An average price of \$17.51 per acre was paid for 102 parcels of land totalling 15,946 acres disposed of by auction at Calgary on Tuesday last under the direction of W. T. Rolleston, comptroller of school lands for the Department of the Interior. The highest price realized for a single parcel was \$51 per acre paid by Hugh Parry of Three Hills.

## Some 200 of the Thousand Head of Buffalo in Elk Island Park, east of Edmonton will be slaughtered during the month of December in order to keep the size of the herd within the carrying capacity of the park pasture. It is expected that most of the meat thus secured will be shipped north in the form of pemmican to provide food for the Eskimo inhabitants of the Northwest Territories as a result of the growing demand from this source following trial shipments made last year.

Police To Enforce Game Laws  
As the result of an arrangement reached by the Department of Agriculture, the Attorney General's Department and the Alberta Provincial Police, administration of The Game Act will be carried on as in the past by the Game Commissioner's Branch and enforcement of the provisions of the Act will be placed in the hands

CHILD BRAVES FLAMES, GETS  
7 TOTS TO SAFETY—HEROISM  
OF NINE-YEAR-OLD GIRL  
NEAR VERMILION PREVENTS  
WORSE TRAGEDY

Edmonton, Nov. 20.—How the heroism of nine-year-old Rosetta Annetts saved from fire and exposure the lives of herself and seven other children of eight when, in the absence of adults, their farmhouse, south of Vermilion, was burned to the ground on Saturday night last, is told in a story that has just reached the city.

Six times, while smoke and flames filled the kitchen of house, the little girl made her lone trip up and down the stairs. At the sixth attempt the paint on the stairs was bubbling with heat, and the brave child's throat was raw and choking with acrid smoke.

## Tot Was Terrified

Rosetta would have saved all the children had not four-year-old Barbara Rennie persisted in returning to the burning house.

Three times the little one went back; twice Rosetta carried her out to safety. The third time the house was so badly filled with smoke that the child could not be rescued; her charred body was found in the ruins of the house after the fire had died down.

The home was that of Alexander Rennie, soldier settlement occupant, separated from his wife. Mr. and Mrs. Annetts lived with Rosetta, the little heroine being their daughter.

TEST AIR MAIL FOR THREE  
WEEKS FROM CALGARY  
TO WINNIPEG

Ottawa, Nov. 19.—Christmas packages crossing Canada may be mailed a day later this year. The institution of an air mail service between Winnipeg and Calgary will clip 24 hours off the trans-Canada journey, post office officials said today.

A contract for a three weeks' test during the Christmas rush has been made with the Western Canada Airways. The service will run into operation on December 10 and will last until the end of the month. If it proves practicable it will be made permanent.

Mail will be picked up from the west-bound trip at 9:15 a. m. in Winnipeg and after being transferred to another plane in Regina will arrive at Calgary at 4:15 p. m. It will then be placed on a train which left the east a day earlier on its way to the Pacific coast. Mail from British Columbia points will be similarly expedited. The plane will pick up the bags at 7 a. m. in Calgary and will reach Winnipeg at 4:15 p. m. in time for eastbound and southward trainings. Connections will also be maintained with other machines flying between Regina and Edmonton via Saskatoon.

In order to take advantage of the service a five-cent air mail stamp is attached to a letter or parcel and is marked, "Via air mail Winnipeg-Calgary." A charge of 10 cents is made for each ounce after the first. Should the service prove satisfactory, night flights will also be instituted. The post office authorities are considering placing night lights across the country in connection with the air force of the national defense department.

CONDUCT OF PROBE INTO  
VESTRISS LOSS ROUSES  
LONDON IRE

London, Nov. 20.—The conduct of the inquiry being held in New York into the sinking of the Vestris drew indignant comment from two of this morning's papers.

The Daily News characterized the procedure as "bullying, biased, ignorant and inconceivably stupid suggestive, a preconceived resolve to vilify British seamanship at all costs and despite all proof to the contrary."

The paper added that the method had aroused deep indignation in Great Britain.

The Daily Mail and Buxton methods of treating unfortunate witnesses as if they were criminals conspiring to deceive caused the greatest resentment in this country.

A mighty wind, sweeping through Westminster, disarmed one of Britain's historic warriors.

The sword of the heroic figure of Richard the Lion Hearted, just out from the house of lords, was snapped from his hand and hurled to the pavement.

Three pupils were injured, one critically, when a ventilator crashed through the roof of the Monmouthshire school at Newport. A number of school children also were hurt near Portsmouth when a lecture hall collapsed in the rain.

All the Passengers Saved  
Boulogne, France, Nov. 17.—The channel steamer Maid of Orleans arrived at Boulogne today after battling thirteen and a half hours with enormous seas on a passage that takes normally an hour and a half. There were 100 passengers on the ship and all of them were rescued. Some were slightly injured by being hurled against walls as the ship was battered by the storm.

## Fear 11 More Drowned

Swansea, Wales, Nov. 19.—Fear that the gale which swept the British Isles last week had added 11 more victims to its toll were held here when it was learned that the steamer Eltham had been wrecked. The vessel was washed ashore, broken in two off Chapel Point, Cornwall, Sunday. Part of one of the Eltham's lifeboats was found on the shore at Penparrett, six miles east of Chapel Point.

The ship left Swansea for Rouen, France, on Thursday with a crew of 11 men and a cargo of coal.

Many Ships Foundered  
Stockholm, Nov. 19.—Many ships foundered off the coast in the violent storm that raged over Sweden during the week-end. No loss of life was reported.

Three of Crew Drowned  
Amsterdam, Nov. 19.—Three members of the crew of 14 of the Swedish vessel Malmoe were drowned today when the ship went aground near Ameland Island.

Do your Christmas Gift Buying early and avoid hurried choosing in the last few days.

RAIL COMPANIES WILL QUIT  
ALBERTA BECAUSE OF  
LOSSES

Calgary, Nov. 17.—At least a dozen big insurance companies, discouraged by the heavy losses of the last two years, have decided to withdraw from the Alberta field, so J. F. Quigley of the Quigley agencies, stated today. This year the loss, Mr. Quigley estimated, was approximately \$1,000,000, and last year the loss was about \$2,000,000. A direct result will be an increase in rates next year.

"However, there is nothing to worry about," Mr. Quigley continued, "for there is no doubt that opportunity will be furnished the farmers to insure against hail."

There will still be about thirty companies left in the field as well as the municipal insurance board, although it is possible that at the annual meeting of the Canadian Hail Insurance Underwriters' Association in Montreal in January, other companies may announce their retirement from the Alberta field."

FREE IMMIGRANT PLAN  
EXTENDED—BOYS AND GIRLS  
UP TO NINETEEN YEARS TO  
BE GRANTED FREE PASSAGE

Ottawa, Nov. 20.—Extension of free passage to boys and girls up to nineteen years of age, belonging to agricultural families in Great Britain, coming to Canada for farm work, is announced by the department of immigration. For the last three years free passage has been given in such cases between the ages of 14 and 17 years. The extension in the age limit is the result of negotiations just completed with the British government.

The cost is borne in equal shares by the two governments. The fare to points in Ontario and east is \$80, and \$100 to points west of the Manitoba boundary.

The children are brought out for placement in selected homes by either the provincial authorities or the juvenile migration societies. In the former case the children are under the supervision and control of the provincial governments. In the latter, supervision is conducted by the federal department. In certain cases, training in farming according to Canadian methods is given in Great Britain.

## 36 DEAD IN ENGLISH STORM

London, Eng., Nov. 17.—Thirty-six persons have been killed in a terrific storm which has been sweeping Southern England during the past few days. Of these nineteen were killed in the south coast, and seventeen were killed in the center at Rye Sussex, when the crew of a lifeboat was drowned.

## Germany Feels Storm

Berlin, Nov. 17.—A small fleet of ocean-going vessels were forced to anchor in the mouth of the Elbe today, awaiting the recession of a severe southwest storm which was churning the Elbe and causing damage along the entire waterfront. The storm, which followed in the wake of a terrible downpour over Hamburg last night, extended along the North Sea coast. It caused much local damage but no loss of life was reported.

Heavy Damage  
London, Nov. 17.—A southwest gale of great violence whipped over South England and Wales yesterday, crippling wire communications, buffeting ships as they ventured abroad and caused widespread damage to property as well as injuries to innumerable persons. Six deaths were reported.

Along the channel ports and the Bristol coast area, the storm was described as the worst in many years. Throughout the day it frequently attained a velocity of from sixty to seventy miles and it continued with dangerous force last night.

Along the coast, chimneys, trees and hanging signs yielded to the fierce blow and many persons in the streets suffered minor hurts.

A mighty wind, sweeping through Westminster, disarmed one of Britain's historic warriors.

The sword of the heroic figure of Richard the Lion Hearted, just out from the house of lords, was snapped from his hand and hurled to the pavement.

Three pupils were injured, one critically, when a ventilator crashed through the roof of the Monmouthshire school at Newport. A number of school children also were hurt near Portsmouth when a lecture hall collapsed in the rain.

All the Passengers Saved  
Boulogne, France, Nov. 17.—The channel steamer Maid of Orleans arrived at Boulogne today after battling thirteen and a half hours with enormous seas on a passage that takes normally an hour and a half. There were 100 passengers on the ship and all of them were rescued. Some were slightly injured by being hurled against walls as the ship was battered by the storm.

Fear 11 More Drowned  
Swansea, Wales, Nov. 19.—Fear that the gale which swept the British Isles last week had added 11 more victims to its toll were held here when it was learned that the steamer Eltham had been wrecked. The vessel was washed ashore, broken in two off Chapel Point, Cornwall, Sunday. Part of one of the Eltham's lifeboats was found on the shore at Penparrett, six miles east of Chapel Point.

The ship left Swansea for Rouen, France, on Thursday with a crew of 11 men and a cargo of coal.

Stockholm, Nov. 19.—Many ships foundered off the coast in the violent storm that raged over Sweden during the week-end. No loss of life was reported.

Three of Crew Drowned  
Amsterdam, Nov. 19.—Three members of the crew of 14 of the Swedish vessel Malmoe were drowned today when the ship went aground near Ameland Island.

WEIGHTY PROBLEMS IN DIPLOMACY  
MAY WAIT SIR AUSTEN'S  
HAND—BRITAIN WILLING TO  
QUIT RHINELAND, BUT  
FRANCE AND BELGIUM OPPOSED—NAVAL DEADLOCK  
WILL ALSO BE DEALT WITH

London, Nov. 20.—When Sir Austen Chamberlain returns to the foreign office from his visit to the United States and Canada, important diplomatic developments are expected.

The doubts of Dr. Gustav Stresemann, the German foreign minister, as to Britain's readiness, regarding the evacuation of the Rhineland, and President Coolidge's apparent willingness to listen to any British proposal for overcoming the naval deadlock, will have to be handled.

The British are quite willing to do the door open for further conversation, and they have already instructed their representatives abroad to this effect.

Authoritative quarters also say that the next meeting of the preparatory commission of the League of Nations on disarmament will afford an opportunity to discuss the problem, but the meeting will not take place until early next year, and meanwhile, the Coolidge note must be answered.

Exactly what Britain will propose is not yet known, and the subject is being earnestly discussed at present. In this connection, the government recognizes the anxiety of parliament on Britain's foreign policy and the need for progressive steps both in relation to Germany and United States.

CABINET COUNCIL TO MAKE APPOINTMENTS  
Ottawa, Nov. 14.—Cabinet council will meet this afternoon. Premier King will preside and a large attendance of members of the cabinet is expected. L. A. Rivett, K. C., Montreal, will, it is understood, be appointed to the vacancy on the circuit court bench of the province of Quebec, although action by cabinet may possibly not be taken at today's sitting.

The result of the by-election in Joliette, Quebec, probably will be awaited before the two senatorial vacancies for Quebec are filled. December 17 has been fixed as polling day for this by-election made necessary by the appointment of the superior court bench for Quebec of the former member, J. J. Denis.

Election of Hon. Donald MacKenzie to the Manitoba legislature within the past few days will necessitate the appointment of a successor to Mr. MacKenzie as a member of the tariff advisory board. A further vacancy remains to be filled on the board of railway commissioners owing to the retirement of Hon. Frank Oliver on reaching the age limit of 75 years. Both appointments, when made, probably will go to western men.

No Announcement  
Ottawa, Nov. 15.—No announcements were made after a lengthy sitting of the cabinet Wednesday. At the conclusion of the meeting the prime minister said there might be an announcement later.

A number of appointments are pending and it is understood that some of them were made yesterday, but will not be approved until today.

FEEDING POTASSIUM IODIDE  
Every year there is born throughout the country a considerable number of hairless pigs, guttered lambs and calves, as well as weak fawns. The element needed by the animal body to correct these ailments, and thus prevent serious losses to the stockman.

Investigations have shown that there are areas throughout the country in which the soil is lacking in iodine and in these areas hairless lambs, guttered and joint-lambs are common. The use of potassium iodide in the areas where these afflictions are prevalent has been proven to be not only effective in the cure or prevention of the disease, but it is also of value in that it seems to have a stimulating effect on the whole system of the pregnant female and particularly the generative organs. A small quantity of potassium iodide administered to the pregnant female, insofar as experimental work has indicated, is responsible for the production of stronger, healthier young.

Potassium iodide should be carefully and regularly fed during the whole period of pregnancy, but satisfactory results have been secured where it was fed for the latter part of the period only. Farmers are urged to feed it during the winter months as it is at this season of the year that the inclusion of iodine in the rations of the affected stock or of the pregnant female is most needed. The deep snow prevents the pregnant animals taking exercise and getting access to the soil. Exercise is always beneficial and the soil seems to be a general regulator for the system.

For sows, dissolve one ounce of potassium iodide in one gallon of water. To the drinking water or the slat feed of each pregnant sow add one tablespoonful of this solution per day.

For ewes, dissolve eight ounces of potassium iodide in warm water, using the minimum amount of water

CANADA HAS NOT REJECTED  
SCHEME—FORKE DENIES  
REPORT THAT LORD LOVAT IM-  
MIGRATION PLAN TURNED  
DOWN

Ottawa, Nov. 20.—Emphatic denial was given last night by Hon. Robt. Forke, minister of immigration, to published reports that the Canadian government had rejected what has become known as the Lord Lovat immigration scheme.

When the minister's attention was drawn to the report he remarked that there was absolutely no warrant for the statement. "The Lovat proposals have not yet been fully considered by the Dominion government and no decision of any kind has yet been reached," he added.

Details of Scheme  
The immigration scheme proposed by Lord Lovat would involve the sale of Canadian bonds to the extent of \$50,000,000 to finance the settlement of British immigrants in Canada. The British government would guarantee the bonds, while the immigrant would be required to meet his obligation on a long-term amortization plan. According to the proposal, earnings for his transportation and expenses for his settlement, provide farm homes and equipment. Twenty thousand settlers would be brought to Canada each year under this scheme.

required to dissolve the drug. Spread 100 pounds of thoroughly dry salt evenly and in a thin layer on a clean floor and sprinkle the solution of potassium iodide evenly over it and mix well. Place this iodized salt before the ewes where they may have access to it during the winter months and up until lambing.

For pregnant ewes, potassium iodide is recommended and may be fed with the salt as per directions given for the feeding of this drug to ewes. Some ewes take very little salt and in this case give the ewe a quarter teaspoonful of finely powdered potassium iodide once each week in the feed.

For pregnant mares give each mare on the first and fifteenth of each month, in the feed grain up in the water, a level teaspoonful of finely powdered potassium iodide.—H. E. Wilson, Dominion Experimental Station, Lacombe, Alta.

SEES COLLAPSE OF RUSSIA AS MONEY POWER  
London, Nov. 20.—The financial collapse of Russia is imminent, according to a ministerial statement made in the house of commons.

Outlining the reasons why Russian orders for goods are excluded from government guarantee of payments extended to British merchants on orders from approved foreign customers, Capt. Hacking, secretary of the overseas trade department, said: "It is unwise to stand under a crumbling scaffold. Russia today has no exportable surplus of grain and no credit under a steadily decreasing balance of trade. Eventually it will become a cash crisis."

"What will happen within a year I hesitate to say."

PROTEIN SUPPLEMENTS FOR  
HOGS

Feeding tests conducted at the Brandon Experimental Farm indicate clearly the economy of feeding protein supplements to hogs. Hog rations, when made up entirely of meals from the cereal grains, are unbalanced on account of the insufficient and incomplete supply of protein. The protein contained in cereal grains is incapable of efficiently supplying the requirement of hogs since it does not contain all the necessary feed constituents in the correct proportions. The ration can be made more efficient and complete by the addition of a protein rich feed of animal origin, such as tankage or milk.

The average results obtained in two tests at this farm show

## FAMES STRANGE WAYS

Strange are the varieties of fame that can come to a man in this world.

The news papers recently made considerable mention of the golden anniversary of an elderly British theologian Canon W. A. Spooner. Canon Spooner had an estimable career; but he would never have been heard of by the ordinary man if it were not for his absent-minded habit of switching the first letters of words to make ridiculous blunders in speech.

It was Canon Spooner, for instance, who said "a half-wormed fish" for a "half-formed wish"; who said "the knee of an idol," instead of "the eye of a needle"; who said a man was "boiling his icicle," instead of "oil his bicycle."

Blunders of that kind, intentional or otherwise, are known throughout

the English-speaking world as "Spoonerisms." Truly, a strange kind of fame to come to an amiable, serious-minded English theologian! But it will keep his name alive for years after his real work has been forgotten.

## MOTORIS IN GARAGES

The imminent approach of cooler weather brings to mind one more warning that the motorist must keep in mind.

This warning has to do with the danger of asphyxiation from the carbon monoxide gas generated by an automobile engine. In the open air this gas is dissipated and has no danger; in a closed garage, however, it is a deadly menace.

Never let yourself "warm up" your motor by running the engine in the garage in the morning before you drive out. Never keep the motor running while doing repair work of any kind in the garage, unless there is a strong current of air running through the place. Carbon monoxide gas is odorless; don't depend on your nose to warn you of the danger. The best rule is never to run the motor inside a garage at all.

## LOCHINVAR'S STILL LIVE

Never say that the age of Lochinvar is over.

A Kansas City youth had a tiff with his lady love. They parted, and she began to accept the attentions of another young man. The first lover brooded; then he began to act.

He drove down the street until he saw his erstwhile sweetie in a car with his rival. Crowding the other car to the curb, he got out, brandishing a jack handle, over-awed his rival and forced the girl to get into

his own car. Then he jumped in and sped away with her.

As they rode, they talked; and presently they drew up in front of a minister's house. License in hand, the Kansas City Lochinvar led his lady in; in a short time they came out, man and wife. They were laughing and talking like any other more conventional newlyweds.

The day of romantic courtships, it would seem, is still with us.

## Spring Point News

On Thursday evening Nov. 15th, the Rev. Mr. and Mrs. Knight of the United Church paid a visit and gave a very interesting and illustrated lecture on Mission Work in Korea, in the school house which was much appreciated. We hope they come again.

There was a large attendance from Olsen Creek, Beaver Heights and Spring Point.

Next day Rev. Mr. and Mrs. Knight paid a visit to Johnston Bros. Saw Mill where they had dinner.

Mrs. Rutledge and little daughters were visitors for the week at the home of Mrs. G. R. Jackman.

Quite a large gathering of friends from Lethbridge and Macleod spent Thanksgiving at the home of Mr. and Mrs. Frank Stones.

There will be a dance at Spring Point School House on Friday, Nov. 23rd to collect funds for the Children's Christmas Tree. All are welcome.

## CHRIST CHURCH W. A. BAZAAR WAS GREAT SUCCESS

The W. A. of Christ Church, (Anglican) Macleod, held their annual Bazaar and Christmas Sale in the Town Hall on Saturday afternoon and evening, which proved to be the most successful and largely attended bazaar that the ladies of this church have held for many years. The sale tables were laden with a wonderful display of beautiful and useful articles, and the pantry table was loaded down with a delectable variety of good things to eat, which needless to say found a very ready sale. The tea tables were kept busy the whole afternoon, difficulty was found at times to accommodate the crowds that thronged the tables. Great credit is due to the energetic President, Mrs. D. J. Grier, for the successful organization of the bazaar and to the splendid band of willing helpers who worked so enthusiastically to make it a success. The financial result of the afternoon was the largest amount that has been taken in at a bazaar for many years, which the President remarked was rather a surprise after the recent drive in the congregation for funds for the Diocese.

The ladies in charge of the various departments were: Tea Tables—Convenors, Mrs. (Rev.) Randall Powell and Mrs. W. V. Price; Pouring Tea—Mrs. Forster Brown, Mrs. A. T. Leather, Miss May Grier, assisting; Serving Tables—Mrs.

## Empress Theater Current Attractions

"LOVE ME AND THE WORLD IS MINE" HOLDS SPELL OF PRE-WAR VIENNA—FRIDAY AND SATURDAY

Dazzling in its atmospheric splendor, throbbing with drama and inspiring with the artistry of direction, "Love Me and the World Is Mine," the Universal production, which opened its engagement at the Empress Theatre Friday and Saturday, is truly one of the important milestones in motion picture achievement.

All of the promise of "Variety," that great German production released in America a short time ago, is fulfilled in "Love Me and the World Is Mine." The directorial skill of E. A. Dupont was behind them both.

"Variety" was made by Dupont in the UFA studios in Germany, and "Love Me and the World Is Mine" was made by the same director in Hollywood. With the greater resources of the American movie capital, and the assistance of splendid actors and skilled technicians behind him, Dupont has surpassed his first great production.

Although the picture is essentially a directorial triumph, it is also a triumph for the individual members of the cast.

Mary Philbin, in her role of the pathetic little Austrian girl, Hannerl, rises to a performance which is likely to remain in the minds and hearts of her audiences for many a day. Miss Philbin has possibly no rivals in this type of role, and the sweet little girl of "Morocco-Bo" has all of the delicate beauty and charm of a few years, plus greater feeling and a greater capacity for emotion.

EMIL JANNINGS IN AN ERNST LUBITSCH PRODUCTION "THE PATRIOT" WITH FLORENCE VIVIER—LEWIS STONE AND NEIL HAMILTON

Emil Jannings, conceded to be one of the world's greatest character actors, gives his most remarkable performance as Czar Paul I, the mad monarch of Russia with the heart of a child and the brain of a tiger. Jannings is superb! His portrayal outshines the brilliance of all of his previous character studies. He is incomparable in this amazing story of a ruler, despised and hated by his subjects, who was betrayed by his staunchest friend.

You will marvel at this famous actor's tremendous range of emotions—from supreme exaltation to the utmost depression—changes which come with such lightning rapidity as to captivate and enthrall you.

Emil Jannings in "The Patriot" is one of the screen's most outstanding achievements. Showing Monday and Tuesday only.

Adapted by Hans Kraly—from the play by Alfred Neumann—R. P. Schulberg, associate producer—a Paramount Picture. Presented by Adolph Zukor and Jesse L. Lasky.

Stedman, Mrs. Hillier, Mrs. Reading, Mrs. Backwell, Mrs. Welch, Mrs. Taylor, Mrs. Davis, Miss Maunsell, and from Hazelmore Church Mrs. Cook and Miss Patterson; Girls attending the tables—Margaret Hillier, Betty Dufour, Gwen Hillard, Jean Hillard, Edith Armer, Kathleen Chow, Ethel Pearson, Gladys Gilroy, Helen McNab, Mona Grier and Elsie Taylor; Pantry Table—Mrs. Hartley, Mrs. Armer and Mrs. Humphreys; Fancy Work Table—Mrs. A. Brown, Mrs. Watson and Mrs. Smith; Jr. W. A. Candy Stall and Wishing Well—Mrs. Gilroy, Mrs. Dowson and Miss Bloomer; Tickets—Mrs. Bingham and Mrs. G. H. Pearson; Tickets on Quilt—Mrs.

THERE is a reason for the popularity of our bread. It pleases the public taste and it is an economical loaf to buy. Remember to order it. Our pastry is of quality supremely healthful and enjoyable.

Marlow; Music—Mrs. Lee Watchorn and Miss Doris Watson.

In the evening the C. G. I. T. (Anglican) held a novelty dance, convened by Mrs. Bingham and Mrs. Hillier, the M. C. was Darold Davis. The music for the dance was supplied by Mr. and Mrs. Cutler, Nellie Taylor and Lee Watchorn. The girls sold candy and supplied orange punch, the whole evening's entertainment being a great success and netting a nice sum for the funds of the C. G. I. T. girls.

## Glenwood News

James Prince has been appointed as Councillor to Clarence Wright in the Young Men's Mutual Improvement Association.

All the teachers of the Glenwood School except Miss Olive Wood, attended the Teachers' Convention at Lethbridge. Miss Wood intended to go but the death of her brother-in-law at Hill Spring prevented.

The School Board took advantage of the few days school holidays to refloor all the rooms of the old school house with maple flooring.

The Misses Grace and Mary Laidlaw, who teach school at Raymond, spent Thanksgiving at their home here with their mother.

Miss Wanda Axelund, one of our local teachers, spent Thanksgiving in Barnwell with her parents.

Lorne Laidlaw has been employed by Mr. Anthony to take charge of his Meat Market, recently rented from Strate & Sons. Keith Brown is also employed as a clerk in Anthony's General Store.

Mr. Lee Nordstrom, son of Mr. and Mrs. M. G. Nordstrom, and Miss Louise Thomas, daughter of Mr. and Mrs. S. H. Thomas, were married at Macleod.

A hunting party of six members, namely, Max and Paul Eldert, Ervin and Leald Loose, George Burgess, and Alvin Nelson, left Glenwood for a hunting trip to the Livingstone river country. They went by truck.

Mrs. E. A. Law is again confined to her bed with illness.

Jacob Lenz was in Lethbridge last week on business.

Frank Smith, bishop of the Hill Spring ward, died very suddenly on Wednesday afternoon, November 7th. He was at his brother's ranch at Mountain View, and had just led a horse to the watering trough, when he seemed to have been stricken with heart failure. He was found a few minutes later with his head and shoulders in the water. The funeral services were held at Hill Spring Friday.

Mr. Smith was very well known throughout this part of the country. He has always led a very exemplary life and has taken a prominent part in public affairs. He was a prosperous farmer and leaves his wife and family well provided for. The entire community mourns the loss of so useful a citizen.

Dewey Leavitt is building a new home, which he expects to complete by December 1st.

On Sunday morning, at the Cardston hospital, twin boys were born.

Bread made from Robin Hood flour keeps moist and eatable a long time.

**Robin Hood FLOUR**

to Mr. and Mrs. E. Glen Wood.

The hunting party that left here last week for the Livingstone river country, have returned. There were six in the party and they brought home three deer.

Thursday evening was the occasion of a fair sized gathering at the home of Mr. and Mrs. J. C. Nelson, when they were surprised by all the married members of their family on the occasion of their thirty-fifth wedding anniversary. Four sons and two daughters, with their wives, husbands, and families gathered and spent an enjoyable evening. Mr. and Mrs. John L. Nelson, of Chesholm, motored down for the event.

C. W. Burt and J. A. Johansen were the special speakers at the Sunday afternoon church service.

There have been two dances at the Community Hall this week. The one on Monday night was under the direction of the Glenora Girls and "M" men. The one on Thursday was under the direction of the Athletic Association. Both were very successful. The Jones Melody Men of Cardston furnished the music for both functions.

Ora Williams, a graduate dentist, visited the School Monday for the purpose of extracting and filling teeth, and making examinations for diseased tonsils.

Cheriton Jacobs, who teaches school at Hartley, spent the week end at Cardston with his parents, Mr. and Mrs. Z. W. Jacobs.

Lee Wood has purchased a house at Macleod and is moving it to Glenwood. At present writing they have successfully crossed the Waterton River.

Ervin Billingsley was a business visitor to Macleod on Saturday.

The grounds surrounding the local bank, have recently been ploughed and fenced under the direction of Mr. Campbell, the local manager.

WE COME FROM AKSHAK

The site of the oldest city of the world has been discovered in the valley of the Tigris river by a party of scientists representing the University of Michigan and the Toledo Museum of Art.

Buried beneath the rubble of forgotten succeeding cities, the explorers found the foundation stones of the city of Akshak, which was old before the pyramids were built and before Nineveh or Ur of the Chaldees had been laid out. The city passed out of existence long, long ago; the Roman emperor Trajan sacked it in the first century A. D. and it has been a wind-blown, sand-covered rubbish heap ever since.

There is something fascinating about the discovery of the ruins of ancient cities.

The race wasn't very far from savagery when this old city was built. Human beings were sacrificed on blood-stained altars in the temples. The wisest men in the world believed the future could be foretold by looking in the entrails of animals; and were convinced that they could control the weather by performing strange rites with decorated sticks and colored pebbles. Nobody had ever doubted that might was right. The high-water mark of civilization was represented in a mud palace where a half-naked king impaled people he didn't like.

If a disinterested, civilized observer—the familiar man from Mars, for instance—could have visited that city then, he surely would have concluded that human beings never would rise more than two or three degrees above the level of animals.

Yet, in that barbaric city were hidden the germs of all our progress.

The city itself passed away, consumed by time and by the tramping soldiers of Trojan's legions. The people that inhabited it went to graves that do not now exist, and the very memory of the place disappeared. Yet something survived.

Something—an impulse, a subconscious aspiration, a veiled desire—proved immortal. Through long centuries of darkness, warfare, suffering and defeat, humanity nourished that spark. It glowed and became a flame, and now and then—at Athens, in Judea, at Rome—it burned with a light to make all of mankind's pathway brighter.

Incomprehensibly, the race made progress. Today the forgotten, ruined city of Akshak stands like a milestone, incredibly far back on the long road from darkness. We were there, once, in the dim morning of history. Today our curious scientists poke among the rubbish with spade and pick. We have left it many leagues behind us. But we must never forget that we once were there. That fact—the contrast between Akshak and the city of today—is a final answer to all the doubters and pessimists of the world.

Even in the old days the amateur was rich, but he got the riches first.

You'll notice, however, there has been no marked-down sale of fighting material since the Kellogg treaty was signed.

Handicap: Something that keeps you from doing your best—like being related to the wife of the boss.

Resort: A place where you pay \$15 the day to look through a big window at the rain.

The number of unemployed depends on whether you call golf sport or labor.

There's always compensation. If you serve cheerfully as goat, the big boys praise your morale.

## OBITUARY

### DEATH OF PHILLIP MCCARTIN

Death removed another old-timer of Southern Alberta Friday night, Nov. 16th, in the person of Phillip McCartin, 79 years, for 30 years cattle buyer for the P. Burns Company. Few persons in this district were better known than Phillip McCartin, and his passing will be widely mourned.

The late Phillip McCartin was born in Johnson county, Ont., and was married in Prescott, Ont., January 26, 1877, coming west to Macleod in 1882. He first worked for the L. G. Baker Company, pioneer trading company, and later for the Maunsell and Franklin cattle companies. Subsequently he transferred to the P. Burns company and was in their employ up to the time of his death.

Deceased is mourned by his wife and five daughters: Mrs. W. Renwick of Calgary; Mrs. Baines, Lethbridge; Mrs. Medhurst, Lethbridge; Miss K. McCartin, teacher of Bellevue, and Miss M. McCartin of the courthouse staff, Calgary.

Mr. McCartin had been ailing for about three weeks and on Monday last suffered a stroke.

A large congregation of sympathizing friends were present at the funeral service at the Holy Cross Church Monday morning. The P. Burns Company was represented by W. Shaw, District Superintendent; Lethbridge; Geo. Parker, Assistant District Superintendent, Lethbridge; and G. Wilson, from the Accountant's Department of the Head Office in Calgary. The principal mourners present were the five daughters, two of them accompanied by their husbands; Mr. and Mrs. Wm. Renwick, Calgary; Mr. and Mrs. E. C. Baines, Lethbridge; Mrs. A. D. Medhurst, Lethbridge; Miss Catherine, Bellevue, and Miss Margaret, Calgary. Mrs. McCartin was unable to attend. The service at the church was Requiem High Mass, conducted by the Rev. Father Ross. Mrs. J. J. Burke took the musical part of the service, with Mrs. L. D. Huntley presiding at the organ. The pall bearers were all Old Timers: Messrs. D. J. Grier, Harry Little, A. F. Grady, T. S. McLean, C. Grier and M. Donohue. There were about 50 cars in the cortege to the Holy Cross Cemetery where interment took place.

### DEATH OF JAMES SCOTT ROTHNEY

When the news flashed through Macleod at noon on Tuesday, November 20, that James Rothney had died at the hospital at 11:15, it came as a great shock to the people of Macleod. Mr. Rothney had not been feeling very well for some time and two weeks ago he was operated on for appendicitis. The operation seemed to have been quite successful and he was recovering rapidly, in fact he sat up Monday for about three hours. Tuesday morning complications set in and the end came very quickly.

James S. Rothney was a well known and very highly respected citizen of Macleod for over 18 years, having come from Scotland in the spring of 1910. He was a blacksmith by trade and he worked for Alex. McLeod for eleven years after coming to Macleod. He took up a homestead about four miles west of Macleod and put in his improvements. Afterwards he worked for Sam McCrea, at the blacksmithing business, and only this spring he went into partnership with Mr. McCrea as a firm McCrea and Rothney, blacksmiths.

Mr. Rothney leaves to mourn his demise, his widow, four daughters and one son. Two of the daughters

are married and are living in the United States, one daughter, Mrs. St. George, in Macleod and Miss Jean, a nurse in Calgary. John, the son, is a third year student at the University of Alberta, Edmonton. Funeral services will be held at the United Church on Thursday, November 22, at 2:30 p. m., thence to the Union Cemetery for interment and will be in charge of Mountain View Lodge No. 4, I. O. O. F., Mr. Rothney having been an active and valued member of that lodge for many years. He was also a member of the Rebekah and the Masonic lodge.

Every editor an expert. The departments of the Family Herald and Weekly Star, Montreal, are all headed by men of practical experience and nation-wide fame—that's why it's first in public esteem. The subscription price is only \$1 a year or three years for \$2.

## REGULAR MEETING OF MACLEOD TOWN COUNCIL

The regular meeting of the Town Council was held on Monday evening last with the following members in attendance: Mayor J. W. McDonald; Councilors A. McLeod, W. A. Day, W. Hoodless, J. Swinerton, W. Stevens and C. E. Tweed.

The regular monthly grants for the schools were passed and ordered to be paid also the current accounts for the past month, which had been O. K'd by the Finance Committee. Lot 33 south side of 23rd Street, formerly the old Post Office building, was sold to A. Utne.

This concluded the evening's business, with motion to adjourn.

## MACLEOD HOCKEY FANS ORGANIZE

What is considered to be the largest and most enthusiastic sports meeting seen in Macleod for many a long day was held Thursday night of last week when the hockey players and boosters convened for the annual organization meeting. The room was crowded and it was noticed that a number of the live wire business men of the town were present to support and back up the puck chasers during the season of 1928-29. The prospects for a first class team were never so good, most of the old fast players are available and two or three new men with exceptional records will be added to the team, which will make it one of the strongest aggregations of hockey players in Southern Alberta.

The election of officers produced the strongest and most enthusiastic bunch of hockey fans to guide the destinies of the club that has ever been elected in Macleod: Hon. presidents, W. H. Shield, M.L.A.; Judge A. M. MacDonald, Mayor J. W. McDonald, J. D. Matheson, K. C.; president, Neville Kirk; vice-president, John Dillingham; secretary-treasurer, Frank Walcher; executive members, Robert Cunningham and Claude Tweed; manager, Frank J. Butler; finance and entertainment committee, D. W. Davis, Roy Clement, Ralph Townsend and J. Dillingham. Delegates to the league meeting, N. Kirk and D. W. Davis.

## PROGRAM OF OPENING CEREMONY AND DEDICATION OF THE SALVATION ARMY CITADEL, MACLEOD

The new Salvation Army Citadel at Macleod, which has recently been completed, will be officially opened on Sunday, November 25th, 1928, at 2:30 p. m. by the Divisional Commander for Alberta, Staff-Captain A. L. Steele, O. B. E., with Mayor J. W. McDonald, K. C., presiding as chairman.

**Opening Ceremony**  
Hymn—  
Introduction of the Chairman, His Honor Mayor J. W. McDonald, by Captain Lesher.

**Remarks by Chairman.**

**Cornet Solo—Bandsman Robinson.**  
Address—Staff-Captain A. L. Steele.

**Prayer and Benediction.**  
Song—"All Things Are Thine."

## WINTER CARE OF SWINE

The experiments at the Dominion Experimental Station at Scott, Sask., in winter-housing of swine indicate that either growing or breeding stock will winter more satisfactorily in a straw shed, feeding being done some distance away, than when confined to a well constructed building.

The exercise obtained in walking 25 to 50 yards twice daily even in the most severe weather appears to be conducive to good health and the straw shed provides dry warm sleeping quarters so essential to successful wintering. A windbreak is desirable at the place of feeding. Swine wintered at Scott under these conditions have never suffered from stiffening while this common winter ailment has occurred in the swine barn on different occasions.

The type of straw shed used was about ten feet square and five feet high inside, with walls four feet thick held in place by woven wire and a three-foot door in the south always open. Poles or scrap boards were used for the top upon which the straw was heaped towards the centre to make the roof waterproof.

A winter ration found satisfactory for pregnant sows was composed of equal parts of bran, shorts and oat chop supplemented with five per cent tankage and a small daily allowance of sweet clover hay. This latter is a valuable supplement to the grain ration.

The quantity of meal fed must be determined by the feeder depending upon the condition of the stock. Growing stock require from three and one-half to four per cent of their live weight per day during the growing period and a little more for finishing. A winter ration for fall pigs which has give good results at

## There Is Little That Is New

in groceries, but Xmas is coming with the heavy responsibilities it lays upon the cook, and, expecting as we do, that the cook will excel herself in the culinary art in the festive season, it is up to us to see that she is provided with materials of the highest quality with which "to do her stuff." A silk purse can't be made from a sow's ear, even in our kitchens. The moral is: Buy quality groceries at the White Hall, and put the onus upon the cook. We guarantee you an entirely successful Xmas Dinner in that case.

## New Wearing Apparel For Men

These cold and snappy mornings call for one to be warmly clad---we are ready to furnish you

MEN'S D. B. OVERCOATS, \$28.50

A snappy line you'll admit when you slip into one of these coats. Well tailored and neatly lined, double breasted, patch pockets, with half belt, all wool fabrics. Sizes 37 to 42.

MEN'S GABERDINE PANTS, \$3.95

An exceptionally hard wearing pant with dress appearance, with belt loops and pockets, suitable for the man that doesn't wear overalls. Sizes 32 to 40.

MEN'S LEATHER LINED WIND-BREAKERS, \$10.50

Tramsters and drivers will find this coat ideal and comfortable, in fancy plaid flannel with patch pockets, buttoned wrist and wool knit band. Sizes 38 to 44.

MEN'S V. SWEATER COATS, \$3.95

These come in lavats and brown fancies, plain rib stitch in self checks, all wool; have two pockets and extra good buying. Sizes 36 to 42.

MEN'S WORK SHIRTS, \$2.25

An assorted range in fancy checks, made from good warm outing flannel. Large and roomy. Sizes 14 1/2 to 17 1/2.

MEN'S ALL WOOL COMBINATIONS, \$3.50

English quality in a fine all-wool medium weight. Exceptional value. Sizes 36 to 42.

BOYS' BLOOMERS, \$2.00

Boys' tweed bloomers in assorted tweeds, with belt loops and adjustable knee. Values to \$3.25. Sizes 4 to 14 years.

### RIGHT BENEATH OUR FEET

"Dad," said son, who was reading the automobile news, "do you think they ever will find a substitute for gasoline?"

"They have one now, son, and I wish you'd give it a trial."

"Huh!" retorted son. "I've never heard of it. What is it, anyway?"

"Shoe leather," retorted his dad.—Cincinnati Enquirer.

Great batters seldom are great golfers, probably because they can't bluff the ball by swinging three clubs as they approach.
